| Vinification                                                                                                                                                                                 |  | The grapes are vinified as a white wine, thanks to a soft pressing carried out immediately after their arrival at the winery. The must is cooled to 10°C so that it becomes naturally clear; the alcoholic fermentation is then triggered off with the addition of selected yeasts and is maintained at a temperature of 16-18°C. |    |                                                                    |                                                                                                                                   |            |

It stands out with its finesse and persistence on both the nose and palate. Excellent as an aperitif, it also goes well with quite elaborate fish dishes.                                                                                                                                |    |                                                                    |                                                                                                                                   |            |
