draft: 20 L, 30 L in Sardinia

FURTHER INFORMATION

1. PRODUCED IN SARDINIA

Ichnusa tells the story of a small regional brewery proudly linked to its land, Sardinia. Always and forever produced in Assemini, on the outskirts of Cagliari, Ichnusa remains faithful to its people and its origins, with its gaze always turned towards the future to keep the quality of its products high.

2. AN ICONIC BOTTLE.

A unique recipe requires a distinctive bottle. Ichnusa Non Filtrata is inspired by one of Ichnusa's bottles from the past and interprets today's consumers in a contemporary way. An iconic appearance, different from all the others on the market, capable of communicating quality and passion for making beer thanks to the artisanal aura that surrounds it. This innovative appearance best expresses its connection with the territory and its passion and meets the demand of Italian consumers to have regional products linked to the territory.

3. INSTINCT, HEART AND PRIDE

The strength of Ichnusa has always been its geographical origin. Starting from the packaging, where there is a strong reference to the deepest values and traditions of Sardinia. Ichnusa Non Filtrata is born in Assemini, the oldest brewery in Sardinia, the true beating heart of Birra Ichnusa. The recipe of this premium lager beer preserves intact the intense flavour of its land, carrying with it its instinct, heart and pride.
